

“ Manufacturing with Precision 24 Years of Manufacturing Experience ”

Co-Extrusion 5 & 7, POD Line, Multi Layer, IBC, ABC, ABA, PPTQ and Twin Die Head

Blown Film Extrusion.

Our current EVOLUTION machine generation stands for high efficiency, quality and ease of operation. You can produce Single to Seven layer blown films with the highest quality & Production capacity for everything from basic packaging applications to highly complex barrier & non-barrier films and agricultural films. Our modular lines can process all customary raw materials, such as polyethylene, polypropylene, polyamide, EVOH, etc.

We serve to Flexible Packaging, Food & Beverages, Pharmaceutical Industry Liquid packaging Lamination Industry, Agriculture, Infrastructure, Stationery & Printing, General Purpose, etc.

FILM APPLICATIONS

Lamination Film

Surface Protection Film

Mulch Film

Agro Shade Net Film

Agriculture Film

Stretch Film
(Stretch Machine)

Shrink Film

Flexible Packaging Film

Shopping Bags

Courier Bags

Nursery Bags

Liquid Packaging
